Plans to Distribute Mill Levy Literature Shown by Leslie; It's Up to the Students Now

Plans for distributing literature about the April 23 Omaha University special election were crystallized at a meeting Monday of some 275 students who have volunteered to be "district captains."

Student Council President Jim

Leslie outlined the plan:

—at 6 p.m., Wednesday, April 3, students will meet in the Field House to receive informational brochures for distribution to every Omaha residence.

—at 1:30 p.m., Sunday, April 21, the volunteers will again meet in the Field House to receive 100,000 copies of a special election edition of the GATEWAY for distribution.

—each district captain will be responsible for covering at least a four-square-block area and should recruit four or five OU students to aid in the canvass.

—More than 1500 OU students are needed for the drive.

—sorority and fraternity meetings scheduled for April 3 will be cancelled.

—Volunteers will be excused from April 3 evening classes "unless an examination is scheduled."

—detailed information may be obtained in the Student Council's special election headquarters in SC Room 234.

"If the voters do not approve

an increase of the levy from two mills to four mills," Leslie said, "tuition will be increased."

"That may not mean much to seniors," he said, "but it certainly will affect freshmen, sophomores and juniors."

Leslie said defeat of the issue will mean an increase of \$3 per credit hour for resident students and \$6 per credit hour for non-resident students next year.

Dean Donald Pflasterer suggested that the volunteers not dwell on a possible tuition increase when talking with prospective voters "because they really don't care if the students have to pay more money."

Pflasterer suggested that the volunteers point out that OU is not competing with the University of Nebraska or Creighton University for students.

"What a lot of people don't realize is that CU and NU can't take care of all students. Every elementary school, high school and college in the country is expanding to handle the increase in enrollments," he said.

"Don't ask the people how they are going to vote," Pflasterer said.

Infringement

"That was a particularly irritating question during the Omaha school bond election," he said. "People consider it an infringement on their democratic freedom."

"Introduce yourselves as OU students, ask the people to read the literature, answer any questions and thank them for their time," Pflasterer advised.

"Don't debate with those who have made up their minds," he said, "be polite and ask them to support OU."

"It's up to you," Pflasterer told the students. "We need your cooperation."

Student Council members serving as ward chairmen are:

Midge Butters, Chuck Saxton, Rich Tompsett, Dud Kersey, Max Voigt, Sheri Zagor, Ginny Bohaty, Larry Hammer.

Randy Nielson, Patti Matson, Sue Weidemann, Malanie Jeub and Kay Borchman.

Regents Approve Summer Projects

More than 70 items amounting to \$24,464 have been approved by the Board of Regents for summer projects by the Physical Plant department.

The projects fall into two categories. One is Building, Engineering and Grounds alterations which will amount to more than \$10-thousand. This includes work such as remodeling, lighting, heating, alteration of drives and walks, and sodding.

The second category is Building, Engineering and Grounds maintenance which will amount to \$14-thousand. It will include such projects as interior and exterior painting, utility maintenance, and drives, walks, and athletic field maintenance.

Some of the work will be handled by Omaha firms. The rest will be done by the men of the Physical Plant Department.

Sinclair Oil Prexy Next in Series

President of the Sinclair Gas and Oil Company, William H. Morris, will speak on "Business in our American Heritage" Wednesday at 8 p.m. in the main auditorium of the Administration Building.

The exact content of the speech, beyond the general theme of business, isn't known since Mr. Morris hasn't been requested to talk on a specific topic. His will be the first of a three-speech series which will comprise the annual American Heritage lectures this semester.

With the new format of not assigning topics and giving the audience a chance to ask questions, William Utley, political science head and series navigator, hopes to bring out discussion on business affairs currently important to the nation as a whole.

Tuck Moore to Head Continuing Education

The new Director of Continuing Education is Thomas (Tuck) Moore.

He replaces Michel Beilis who resigned to take a job with AT&T in New York.

Mr. Moore was graduated from OU in 1952 with a Bachelor of Science degree in Journalism.

As a journalism major, he was editor of the Gateway and worked on the Tomahawk.

Following graduation, Mr. Moore worked for a short time for Robert McGranahan in the OU publicity office.

Mr. Moore then worked at the Omaha World-Herald as a general assignment reporter. He was made education editor in 1957 and covered public and parochial schools and universities in Omaha and District 66.

As Director of Continuing Education, Mr. Moore will be in shops and conferences.

Moore Back at OU On Part Time Basis

After suffering from an attack of rheumatic fever, David P. Moore, assistant professor of German, has returned to his teaching duties at Omaha University on a part time basis.

Mr. Moore is teaching his advanced German classes and will resume instructing his other classes as soon as his recovery is complete.

Official Notices

Today (March 29) is the deadline for entries in the Intramural Oral Interpretation Contest.

Any student planning to graduate on June, 1963, must make "Application for Degree" at the Office of the Registrar prior to April 5, 1963.

Any bootstrapper who entered school at mid-year and did not get his picture taken for the Tomahawk, may have it taken and it will be used in next year's annual.

For further information see Paul V. Peterson in AA 130 or Tomahawk Editor, Mary Lou Thibault in AA 116.

'Voter Interest Up' With OU Speakers

By Hans Nohr

The mill levy speakers bureau this week was said to be one reason behind increased interest among voters in getting more information about the upcoming election.

Commenting on the bureau, Dr. Aldrich Paul, head of the speech department, said "it seemed like we started slow but the last week has seen a decided pickup in interest towards getting additional speakers and information." He pointed out that daily calls coming in point to a rising interest among voters.

During the past week, the speakers have addressed a number of day and night classes at the University as well as various clubs, organizations, and P-TA's.

"Generally speaking, we are pleased with student awareness and response to the coming election," Dr. Paul said.

He said there have been reports of poor speakers but favorable reports far outweigh the bad ones. He noted it's to be expected that when working with a mass of over 60 student speakers, the quality is not as good as that of 10 or 15 carefully selected speakers. Presently, there are 66 students, 18 faculty members and a number of alumni speakers with the bureau.

Dr. Paul said that as far as the bureau goes, "we are doing as much as we can."

In addressing various groups, the two questions most often asked concern the bowling alleys and the bootstrappers.

Dr. Paul noted that although it has been pointed out that the alleys were built with student activity funds, and not tax dollars, the fact still seems to escape many people. Also, he said, many people fail to realize that the bootstrappers pay full non-resident tuition while attending OU.

Annie Shoots It Up in Spring Show

Omaha University's spring musical, "Annie Get Your Gun" will be presented tonight, tomorrow afternoon and night in the Administration Building Auditorium.

Tonight and Saturday night's productions are for the student body and the general public and begin at 8:30 p.m.

The Saturday matinee is a special production free to all high school students participating in OU's Fine Arts Festival. "Annie Get Your Gun" is the story of an innocent, backwoods girl who was born with a rifle in her hand.

She is hired by Buffalo Bill's Wild West Show as a second to Frank Butler (Bob Larsen) the "Sharpshooting Champion of the World."

Unfortunately Annie Oakley (Dorothy Davitt) falls in love with Butler and worse she turns out to be a better shot.

Butler quits the show in a huff and signs on with the rival Pawnee Bill Show. The play provides tender suspense as Annie painfully discovers that "You Can't Get A Man With A Gun."

The musical sparkles with Irving Berlin songs such as "The Girl That I Marry," "You Can't Get A Man With A Gun," "Falling In Love Is Wonderful," and "Do' in What Comes Naturally."

Included in the Cast is Bob O'Neal as Charlie Davenport, Ron Bojanski as Buffalo Bill, Ernie Carriere as Chief Sitting Bull and Jerry Scheschy as Foster Wilson.

Jana Doxon is Winnie Tate and Garry Wallace plays Tommy Keeler.

Stage direction is handled by OU Theater Director Dr. Edwin Clark, Assistant Director is Carole Abernathy.

Conducting the OU Orchestra is Dr. James Peterson. Mr. Melvin Olson directs the chorus.

C. Harold Bush is Technical Director. Art Instructor Jane Anderson designed the sets and Mrs. Beth Gaynes handles choreography.

The show was specially produced for the Omaha, West Omaha and Council Bluffs Rotary Clubs Wednesday night.

"Annie Get Your Gun" was produced through the combined efforts of the University Theater, the Art and Music Departments and the Department of Women's Physical Education.

Tickets are on sale in front of the OU Bookstore.

Glass Turns Brown in Radiation Experiments

by Roger Prai

Plastic electrical capacitors, carbon transistors and different types of glass were irradiated last Friday at the Veterans Hospital.

Packed into a small round container, the objects were lowered into the core of an atomic reactor where they were bombarded with neutrons for an hour.

This is part of an experiment to determine the effects of radiation on these objects at the Omaha University campus under the direction of Professor

Students examine radiation equipment in Physics Lab.

John G. McMillan, Physics department head.

When withdrawn from the reactor one of the capacitors was so hot, it sounded the alarm. Using a pair of long tongs, the attendant literally ran to the protective shielding with it.

Week to Cool Down

It took about a week for the objects to cool down enough for safe handling by the students. Prof. McMillan said it would have been more desirable if tests could have been conducted on the objects immediately after they were withdrawn from the reactor. This could not be done because only a professional scientist could be allowed to do this.

Prof. McMillan noted that while the testing is still inconclusive, some of the results are interesting.

"For example" he said, "the glass has turned a dark brown. However, if the glass is heated above a certain temperature, it turns clear again."

"What we are trying to find

Fine Arts Festival Set for Tomorrow

The High School Fine Arts Festival will host about 600 high school students tomorrow at the University of Omaha.

The students will have the chance to become acquainted with the college campus and be able to ask questions applying to Omaha University and college life.

The high school students, juniors and seniors from the Omaha area, have a choice of two activities to attend. Activities include: theatre production, modern art, modern dance, public speech and debate, TV and radio, art and music.

The students will be given a ticket for a special performance of "Annie Get Your Gun." The program begins at 10 a.m. with an orientation of all students in AA 101.

Is There Academic Freedom at Omaha U?

By Leo Meidlinger
 and Bill Brand
 (Part Two)

Because academic freedom is a sometimes controversial subject on many campuses, the GATEWAY has taken an informal survey of administrative deans and academic department heads to find out what they feel academic freedom is and if they are allowed to practice it at OU.

Here is the last installment: Hollie Bethal, elementary education head:

"I feel that academic freedom is freedom to express your own philosophy of education as you see it."

Miss Bethal said she treats her students as mature people and feels that if she has something worth while to offer her students they will respond. She said she couldn't be happy if she wasn't allowed to express her views.

John Blackwell, head of the Art Department:

Academic freedom is the opportunity to teach what one feels ought to be taught.

Roderick Crane, head of the Economics Department:

"Academic freedom applies primarily to the subject in which a teacher is supposed to have occupational competence. In that field he should feel free to present material he thinks is both typical and representative."

He went on to say that he doesn't think this means that a teacher should express himself on a variety of subjects outside his field of competence and the reason for this is that the students regard teachers' statements as vested with a certain degree of authority. However, the teacher may be far from being properly informed on matters outside his field.

It is well to remember that we never have an absolute right and with rights there comes responsibilities; responsibilities to the institution that one represents and to the state and na-

tion, Professor Crane stated.

William Hockett, head of the Accounting Department:

"Academic freedom is a phase that has become associated with the profession of teaching. It seems to me that today the word 'freedom' is too often associated with rights and privileges but does not include responsibilities."

"I would substitute the word 'independence' for 'freedom.' To me, the term 'academic independence' would mean that the teacher is self-reliant. He should be unbiased and guided by the highest standards of honest, objective judgments and considerations."

Hubert Hunzeker, head of the Math Department, said, "Academic freedom means freedom within one's realm of competency. I think that we have more freedom at OU than at many public universities."

D. N. Marquardt, head of the Chemistry department, said, "I don't think I'm anyone to be talking about that, so why don't you get hold of some of the other department heads."

John McMillan, head of the Physics Department:

It is the freedom to speak or act within the framework of responsibility.

He explained that we pay for all our freedom by being responsible and if we aren't responsible we lose the freedom.

He added that we are free to own our own homes and land but we must respect the others' property. In the same vein if academic freedom in teaching is controversial, then we must respect the other persons' viewpoint.

Aldrich Paul, head of the Speech Department, said, "Academic freedom involves the right of a qualified, competent teacher to conduct his class in a manner necessary to communicate the subject matter in accordance with his highest sense of intellectual honesty; this should include the right to discuss issues controversial to the

popular attitudes of the community without fear of retribution."

"When talking to groups of people I try to avoid spur-of-the-moment remarks and always try to do a little editing."

Willis Rokes, head of the Insurance Department, said, "Academic freedom is a situation which allows a faculty member to study, think, write and speak in an intellectual stimulating environment; free to manage his own economy of time and effort unburdened by a multiplicity of time-consuming policies, routines, and excessive duties which deny him the opportunity to learn."

Paul V. Peterson, head of the Journalism Department:

Academic freedom means a teacher has the right and responsibility to his students to present the facts that are true and those based on research.

He also said that he has an 'absolute maximum' of academic freedom and at no time has any member of the administration or anybody else ever reprimanded him for his method or material of his teaching.

Gordon Schilz, head of the Geography Department:

"I feel that it is the idea that the professor can teach what is true or what, through research he believes to be true."

He feels that he is personally allowed enough academic freedom within the realm of his own field and that he teaches what he feels is right. He tries to give his students a look at different countries despite the fact that some people feel controversial viewpoints should be suppressed.

William Jaynes, head of the Psychology Department:

"It is the freedom to express opinions and to follow leads in research wherever it may go."

He said there is a great responsibility to the society and that he does not believe in unlimited academic freedom.

Paul Kennedy, head of the Secondary Education Department, said that academic freedom is the opportunity to teach both in content and method the way he feels will most nearly approximate the goals that he has set for himself in the classroom.

This, however, has to be in light of the control of our public education system by the lay public. If a person bucks the institutions' policies in which he is working he must be prepared to take the consequences.

"One of the nicest things at OU is the academic freedom I have," Dr. Kennedy said.

He added that if he didn't have this freedom he would leave for there are many jobs open to him in his field. The public has the responsibility, in this country, to provide the educational system.

William Utley, head of the Political Science Department:

Academic freedom means the freedom of the individual to present whatever material he feels is pertinent to the subject for which he is responsible.

"Freedom is not a license to do whatever one wants. It is an opportunity for self discipline and acceptance of responsibility." He continued that it doesn't give the teacher the right to irresponsibly attack a subject even in his own field.

"This doesn't mean we have to be namby-pamby. It means that teaching is a lifting process. Teachers must uplift the subject and not impress opinions, especially in an undergraduate situation where students are still highly impressionable."

"On the other hand an instructor who tries to completely cover up his own feelings is a nitwit."

This doesn't mean he has the right to take advantage of the students and that he should use his position as a soapbox" Mr. Utley said.

Students' Cries of Objections Cause SC to Cancel Its Rule

By Jack Turner

Hear Ye, Hear Ye, Students. Arise. Our freedoms are being encroached upon.

This was the feeling as a steady stream of students poured into the office of the director of student activities as the result of a new ruling that went into effect last Thursday.

The ruling? Six people could sit at small tables and eight at large tables in the OUampi Room during certain hours.

According to Mr. Gerbracht, Director of Student Activities, we just can't have that many unhappy students. The restriction was lifted after four days.

A similar rule has been effective in the main cafeteria. However, organized groups have found the OUampi Room a haven for large group fellowships at the natural time-lunch.

This new rule, it was felt, deprived the groups of a daily meeting place where they can be identified as a group. This is their student union and the students felt that they should have some say as to how it is run.

Other feelings

The time of greatest concern was between the hours of 11 a.m. and 1 p.m. At this time of day the bus boys cannot get through to clean the tables. Like any human beings, they will tend to let the work go if they have to fight their way through the crowd.

The bulk of the students have feelings and emotions about the OUampi Room. They want it to have some semblance of order and cleanliness.

By next year, according to Mr. Gerbracht, they would like to have 150 more chairs and 16 more tables in the OUampi Room to meet the expected growth.

Recently, in an attempt to give immediate relief, 80 folding chairs and eight large round tables were made available during the hours of 11 a.m. to 1 p.m. This in itself would create more congestion without some "social" control.

The students have apparently abandoned their responsibility of returning their own dishes to the dirty dish area. The students have been negligent in keeping debris from the floors.

This has caused the Center to employ a greater staff to clean the tables and sweep the floors more frequently.

Even at that, the OUampi Room is still too dirty to suit many students. After 1 p.m. there is no other campus retreat for refreshments so all students must go there whether they like it or not. It should be a fit place for all.

Seeking answers

The congestion problem around the tables has been a problem since last fall and has gradually become worse. We do not need a high school lunch room with monitors and we do not want another "Shack" on campus . . . especially in the Center.

"Name it and we'll do it," said Mr. Gerbracht. The management is always looking for better ways to protect our campus investment. The doors for suggestions are always open for anyone wishing to express himself in this area.

Enforcement of Constitution Questioned by YR's Speaker

By Bill Grow

"The United States has a Constitution it can't legally enforce."

This 'warning' was sounded Friday by Clarence Manion, former dean of the Notre Dame Law School and professor of Constitutional law there.

He listed several instances of what he called violations of the Constitution being perpetrated by the Kennedy Administration.

Among them are:

- management of the news from government agencies and projects,

- subsidizing religious organizations in other countries.

- presidential treaty-making without the consent of Congress.

"The Constitution was designed to limit government. It spells out what politicians can't do and these 'can'ts' are the things they are doing," Mr. Manion stated.

"Our government is doing everything but what it was intended to do; protect life, liberty and property," he declared.

The educator-turned-political commentator pointed to a lack of Supreme Court action and an old law as the chief stumbling blocks of those who would like to halt the constitutional encroachments.

Supreme Court Idle

"The Supreme Court hasn't ruled against a Congressional edict pertaining to the Constitution in 27 years," he said.

Quick to refute this, however, were several members of Mr. Manion's sponsoring group on the campus, the Young Republicans.

"A ruling by the Supreme Court within the past month has thrown out a Congressional law stating that any person who

Manion . . . "Constitution not legally enforceable."

commits an act of treason automatically forfeits his Constitutional rights." YR spokesman give their permission except in non-controversial cases," Mr. Manion concludes.

Questions

In a question-answer session following the speech, no questions were asked which indicated the questioner differed with Mr. Manion.

What the students and faculty seemed most interested in was, "what would you do different Mr. Manion, if the job of running the country was yours." Due to a very tight speaking schedule Mr. Manion had little time to reply.

Beyond sounding a call for "a return to constitutional government," Mr. Manion's appearance on campus seems to have served as a catalyst for a rapidly-forming group of organized Young Republicans here.

YR's Growing

Following the lecture ten students stayed to join the group and several others who had to attend classes expressed an interest in YR activities.

An interesting situation has cropped up. The Young Republicans have been challenged to a debate by the Young Democrats.

"There's only one problem," Gary Meester, recording secretary for the YR's said.

"There still is no Young Democrat organization on campus."

The YR's will hold a luncheon meeting, 12:30 next Wednesday in Alcove A of the cafeteria. "We're still wide open to anyone interested in joining," Gary said.

OU Spring Musical Judged a Success

By Bill Brand

Swift-moving scenes, with no intermissions, and a flawless rendition of Irving Berlin's hit songs by the OU Orchestra made the first night production of "Annie Get Your Gun" worth seeing.

With a cast of 52, it's hard to pick an outstanding actor or actress. I'll have to nominate Bob O'Neal as Charlie Parker, and Dorothy Davitt as Annie Oakley as tops.

O'Neal played his role as a promoter and general welfare director with humor and proficiency. His characterization was completely believable.

Dorothy Davitt as homespun, lovestruck Annie Oakley was charming. Her backwoods twang was good and so was her singing.

Bob Larsen played his role as Frank Butler, World's Champion Sharpshooter and the guy Annie "couldn't get with a gun."

One scene I particularly liked was between Winnie Tate (Jana Doxon) and Tommy Keeler (Gary Wallace). In this scene they portrayed two young lovers about to elope. The song was "I'll Share It All With You." Somehow, they captured the magic of such a moment.

Joyce Hunter turned in a good performance as rich, debonair Sylvia Potter-Porter.

I think Ernie Carriere enjoyed playing Chief Sitting Bull. He made a fabulous Indian.

All in all for a first night college production, "Annie Get Your Gun" was well done. There were rough spots, of course, mostly little things like the gun that didn't fire and a couple of times the spots shook a bit.

A lot of work's gone into it and it certainly provides three acts of good entertainment.

Houdek Takes Over Top Cadet Position

Cadet Colonel James Houdek took over as new Wing Commander of the 470th AFROTC Cadet Wing at Omaha University March 21.

Cadet Houdek relieved Cadet Paul Downie as the number one man in the cadet staff. Houdek is the fourth man to command the wing this year.

Cadet 1st Lt. Downie is now the Personnel Officer. Other members of the staff include: Cadet Lt. Col. Douglas Falconer, executive officer; Cadet 1st Lt. Fred Abbott, administrative officer; Cadet 1st Lt. Ed Powers, operations officer.

Cadet 2nd Lt. Richard Smith is the new information services officer and comptroller for the Wing. Cadet 1st Lt. Art Simon will also double up in offices, handling the jobs of material officer and security and law enforcement.

Cadet Capt. James Cox is the new assistant personnel officer in charge of testing, and Cadet 1st Lt. Ronald Toman is the new inspector.

No Books Banned At Eppley Library

"No books are banned at the Gene Eppley Library," said R. D. Means, library public service.

"However books are accepted if they apply to the OU curriculum."

There is a broad selection of books at the library. Every subject, from art and English to philosophy and politics can be found on its shelves.

"There is a slight problem with stolen books," said Mr. Means, "But the real problem lies in pages torn out of the books. I don't know off hand how much money is lost through the theft of books or the repair of torn pages."

Business Fraternity Hosts Meet Tonight

Delta Sigma Pi, men's professional business fraternity, will host a meet with Alpha Delta of Nebraska U and Beta Theta of Creighton U. tonight.

The event will begin at 6:30 p.m. at the Castle Hotel.

Mr. Debus, vice president of the Kansas City Federal Reserve Bank will be the guest speaker.

Students Can Find Jobs at Omaha U.

Tight schedules often prevent students from securing part-time employment. What if it's necessary financially, but impossible due to a crowded schedule? Well, many students have found that part-time employment on campus is the answer.

Omaha University offers jobs to students in many of the offices on campus. They range from custodian workers to stenographers. A survey taken during the first semester of 1962-1963 showed that 214 students have taken advantage of this University employment.

Students interested in such employment must register with the Student Placement Office on the second floor of the Administration Building. The students employed average from 12 to 15 hours of work each week.

They can earn from 75 cents to \$1.25 per hour depending upon the type of position and the experience the student has.

Letters to the Editor

Do we, at the present time or in the near future, need an addition to the library? Could we get around this expense by better arranging the present library?

If we do need more room, could we add another story to the present library instead of cutting down on campus parking space?

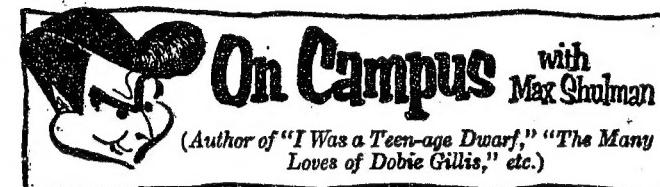

It seems to me that our library isn't open or available to the students enough to warrant this additional expense.

Ray Krigsten

I would like to thank Pat Chelborad and her committee of I.S.A. members for the work they did on the Red Cross Blood Drive. Also the student body is to receive thanks.

The goal was not reached, but for this time of year the drive was a success. A special note of thanks to Colonel Swenson of the R.O.T.C. department for his help in making the drive a success.

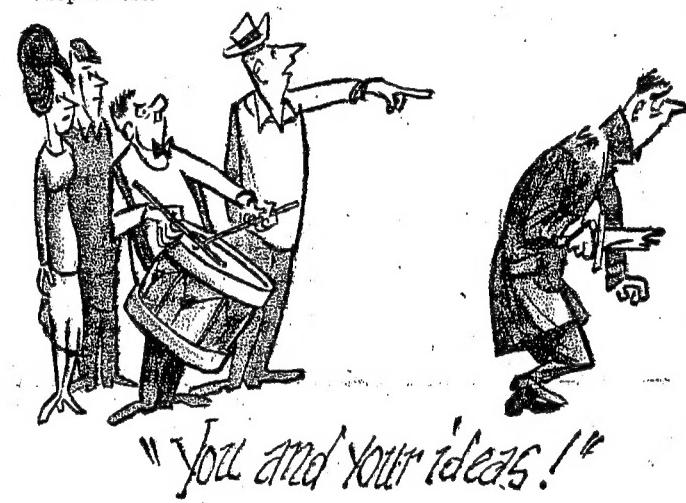

Rene Hlavac
Instructor,
Department of Education

MARKING ON THE CURVE—AND WHAT TO DO ABOUT IT

Twonkey Crimscott was a professor. Choate Sigafoos was a sophomore. Twonkey Crimscott was keen, cold, brilliant. Choate Sigafoos was loose, vague, adenoidal. Twonkey Crimscott believed in diligence, discipline, and marking on the curve. Choate Sigafoos believed in elves, Julie London, and thirteen hours of sleep each night.

Yet there came a time when Twonkey Crimscott—mentor, sage, and savant—was thoroughly outthought, outfoxed, outmaneuvered, outployed, and outwitted by Choate Sigafoos sophomore.

It happened one day when Choate was at the library studying for one of Mr. Crimscott's exams in sociology. Mr. Crimscott's exams were murder—plain, flat murder. They consisted of one hundred questions, each question having four possible answers—A, B, C, and D. You had to check the correct answer, but the trouble was that the four choices were so subtly shaded, so intricately worded, that students more clever by far than Choate Sigafoos were often set to gibbering.

So on this day Choate sat in the library poring over his sociology text, his tiny brow furrowed with concentration, while all around him sat the other members of the sociology class, every one studying like crazy, every one scared and pasty. Choate looked sadly at their stricken faces. "What a waste!" he thought. "All this youth, this verve, this bounce, chained to musty books in a musty library! We should be out singing and dancing and cutting didoes on the greensward! Instead, we are here."

Then, suddenly, an absolute gasser of an idea hit Choate. "Listen!" he shouted to his classmates. "Tomorrow when we take the exam, let's all—every one of us—check Choice 'A' on every question—every one of them!"

"Huh?" said his classmates.

"Oh, I know that Choice 'A' can't be the right answer to every question," said Choate. "But what's the difference? Mr. Crimscott marks on the curve. If we all check the same answers, then we all get the same score, and everybody in the class gets a 'C'."

"Hmm," said his classmates.

"So why should we knock ourselves out studying?" said Choate. "Let's get out of here and have a ball!"

So they all ran out and lit Marlboro Cigarettes and had a ball, as indeed, you will too when you light a Marlboro, for if there ever was a cigarette to lift the spirit and gladden the heart, to dispel the shades of night, to knot up the ravelled sleeve of care, to put spring in your gait and roses in your cheeks, it is filtered Marlboros—firm and pure and fragrant and filled with rich, natural, golden tobacco. And, what's more, this darlin' smoke comes in soft packs that are actually soft and flip-top boxes that actually flip.

Well sir, the next morning the whole class did what Choate said, and, sure enough, they all got 'C's, and they picked Choate up and carried him on their shoulders and sang "For He's a Jolly Good Fellow" and plied him with sweetmeats and Marlboros and girls and put on buttons which said "I DOTE ON CHOATE."

But they were celebrating too soon. Because the next time shrewd old Mr. Crimscott gave them a test, he did not give them one hundred multiple choice questions. He only gave them one question—to wit: write a 30,000 word essay on "Crime Does Not Pay."

"You and your ideas," they said to Choate and tore off his epaulets and broke his sword and drummed him out of the school. Today, a broken man, he earns a living as a camshaft in Toledo.

Journalists Question Milo Bail On Pending Mill Levy Issue

President Milo Bail presents views on upcoming mill levy election on Wednesday's session of "Issue '63." The program, presented by KWOU-TV on closed-circuit television, is piped into Room 256 AA.

By Arlo Grafton

The fourth presentation of "Issue '63" featured Dr. Milo Bail, President of the University of Omaha.

The program, put on jointly by the Radio-TV and journalism departments went on the air at 1:30 Wednesday afternoon.

The questioning, of course, centered around the upcoming mill levy election.

Questioning Dr. Bail were journalists Hans Nohr, Roger Prai, Bill Brand and Arlo Grafton.

One big question fired at the president was, "What will happen if the election is lost?"

Dr. Bail's answer, "We can't lose!" He then went on to say that if the election is lost, then we would have to do what we desperately don't want to do, put a ceiling on the number of students that can attend the University.

"But, as a rule, the people of Omaha favor education, and for this reason I don't think they will turn down this chance to insure students a chance to get that education," he added.

Enough Information?

Dr. Bail was asked if he thought they were getting their story across to the people in the

Engineers Organize New Student Society

This week the Omaha University student post of the . . . Society of American Military Engineers put the finishing touches on the organization of the new OU post.

The group elected officers for the coming year this week. They are: David Schuur, president; Fred Abbott, vice-president; James Bronowski, secretary; and Richard Parrish, treasurer.

David Schuur, president of the new post, extended an invitation to all engineering majors and AFROTC cadets to attend the next meeting of the Society which will be held on March 27, at 4 p.m. in Room 189 of the Administration Bldg.

OU Regents Approve Six For Faculty

Six new faculty members have been approved by the Board of Regents for the 1963-64 academic year.

In other action, the regents accepted five resignations and granted one leave of absence.

Leading off the list of new members in the faculty family is Charles A. Harkness who will become the Director of University Studies Division and instructor in education. Harkness has been the personnel director at Kansas University for the past ten years.

Harl Dalstrom was added as an assistant professor of history. He is an OU grad with bachelor's and master's degrees to his credit. Dalstrom is slated to get his Ph.D. degree this summer at the University of Nebraska.

The Women's Physical Education department picked up another instructor in Miss Constance J. Claussen. Miss Claussen is also an Omaha U. graduate, receiving her bachelor's degree in 1961. She is scheduled to receive her master's degree from Adams State College, Colorado, this summer.

World Traveler

A man who has seen much of the world's geography was named an assistant professor of geography. Nicholas Bariss is from Clark University, Worcester, Mass., where he is working on his doctorate. He did his undergraduate work and taught at Botvos Lorand University in Budapest, Hungary.

A veteran newsman was appointed as Director of Continuing Education in the College of Adult Education. Thomas (Tuck) Moore is an OU journalism graduate and an experienced reporter for the Omaha World-Herald. His appointment will become effective this Monday.

Thomas H. Majeski will become an instructor in the Art Department. He will receive his master's degree from Iowa University in June. His bachelor's degree was obtained at OU in 1960.

Five Resignations

The five resignations will all become effective August 31.

They include: Mary Calkins, instructor of library science and readers advisor; Beryl Eagleson, instructor of English; Paul Gardner, assistant professor of biology; Melvin Olson, assistant professor of music; and Dr. Raymond Smith, Jr., assistant professor of history.

Baker Gets Leave

The single leave of absence was granted to Bruce Baker an instructor of English. He will leave during the 1963-64 academic year to accept a graduate fellowship at Texas Christian University to work on his doctorate degree.

JOB IN EUROPE

Grand Duchy of Lux. Mar. 29, 1963

The American Student Information Service, celebrating its 6th Anniversary, will award TRAVEL GRANTS to first 1500 applicants. ASIS is the only authorized organization offering approved summer jobs in Europe, on a large scale, to U.S. students.

Three thousand paying summer jobs (some offering \$190 monthly) are available. Jobs include working in Swiss resorts, on Norwegian farms, in German factories, at construction sites in Spain, and at summer camps in France.

Send \$1 for a 20-page Prospectus, complete selection of European jobs, Job Application, handling and airmail reply. Write, naming your school, to: Dept. T, ASIS, 22 Ave. de la Liberte, Luxembourg, Luxembourg City, G.D. of Luxembourg. The first 8000 inquiries receive a \$1 coupon towards the purchase of the new student travel book, *Earn, Learn and Travel in Europe*.

CAE Sponsors Summer Tour for History Students

"Morning drive to Pisa to see the Leaning Tower. Continue along to the Italian Riviera coast to Rapallo." These words, believe it or not, describe a day in an Omaha University class.

This "dream class" is the 37-day Study Tour credit course sponsored by the College of Adult Education. Dr. A. Stanley Trickett, professor and chairman of the department of history at OU, will serve as guide and educator for the eight-country tour.

Participants will leave Omaha by jet, June 10 and visit Ireland, England, Holland, Germany, Switzerland, Italy, France and Monaco. Since the tour yields six hours academic credit, there

are definite arrangements for classroom, including tests.

The purpose of the course according to Dr. Trickett is to "give students the benefit of modern and contemporary history in its actual setting." A day-by-day itinerary has been outlined by Travel and Transport, the Omaha firm in charge of arrangements for the tour. Dr. Trickett will lecture while the group is traveling and during the various stops. Students are also allowed free time during the trip.

It is not, however, a "Cook's Tour." Students will see many aspects of each country and not merely the conventional tourist stops. For example, in Ireland, visits will be made to Muckross Abbey, Killarney and Blarney Castle. A five-day session in London will acquaint students with Piccadilly Circus, Westminster Abbey, the Old Curiosity Shop, Fleet Street, The Tower of London and countless other attractions. Several days will be spent at Stratford-Upon-Avon, Cambridge and Harwich.

A three-day tour of Holland follows. The group then will proceed to Germany, where some sight-seeing will be done by Rhine River steamer. After a drive through the Black Forest, the travelers will arrive in Switzerland.

From Switzerland, the group goes to Italy, where emphasis will be placed on painting and architecture. "The Last Supper" and the Basilica of St. Paul are prime points of interest.

The bulk of the tour takes place in France. Six days will be spent in visiting villages, towns and centers of history. The group will return to Omaha, July 16 after four days in Paris.

"Excellent response has been indicated," said Donald Z. Woods, dean of the CAE. "Several students have already paid the 'earnest fee' of \$100 required by April 29."

Total cost is \$1,585. This covers all expenses with the exception of such articles as personal nature.

Campaign Needs Phone Volunteers

Student volunteers are needed to help the Alumni Association conduct a telephone campaign to contact 4500 alums and 6,000 persons who have or are attending night school at OU.

The purpose of the campaign is for students now attending OU to make a personal appeal to alums in the Omaha area to support the mill levy.

Arrangements to have 10 temporary phones installed in the Student Organizations Room at the Student Center have been made by the Alumni Association. All calling will be conducted from there.

The campaign will be held from April 8, to 22. The phones are expected to be in use every day during this period from 10:30 a.m. until 9:30 p.m.

For the purpose of continuing the campaign, the Student Center will be open during spring vacation, April 11 and 15.

Students can sign up for the campaign in the Alumni Office. After a student has volunteered he will receive full instruction concerning the telephoning procedure.

University Librarian Due to Leave Hospital

Ellen Lord, the University librarian will be discharged from St. Joseph's hospital tomorrow according to present information.

Miss Lord has been hospitalized since late February when she slipped on ice and broke her hip.

The broken hip was pinned during surgery and Miss Lord is now on crutches.

Reservations Due By Next Friday For Officers Meet

Waokiya, Senior Women's Honorary, is sponsoring its biennial Leadership Conference, Thursday, April 18 from 9:15 a.m. to 1:00 p.m. The purpose of this event is to enable officers of campus clubs to be more understanding of their specific duties and to solve special problems.

Officers are asked to make their reservations no later than Friday, April 5, with Mrs. Olsen in the Dean of Students' Office. A fee of two dollars will cover the luncheon and an "Organization Officers' Manual." This amount will be paid when the reservation is made.

Mr. Harold Poff, recently named director of the Alumni Association's annual fund drive, will speak at the luncheon. Mr. Poff is vice-president of Holland, Dreves, Arendt & Poff, advertising agency.

Earlier that morning the following faculty members will lead officers' discussion groups: Mr. Bruce Baker, English instructor, social chairmen; Mr. Paul Borge, speech instructor, vice-presidents; Mr. Joe Hanna, education instructor, presidents; Miss Joyce Minteer, business instructor, secretaries; and Mrs. Velma Titzell, cashier, treasurers. Sponsors are invited to attend any of the officers' meetings.

The student officer, if he did not receive a letter of invitation, should contact Dean Hill for further information.

Alpha Xi Dance Slated Saturday

Alpha Xi Delta will hold its annual Rose Formal dinner dance March 30. It will be in the Ak-Sar-Ben Room of the New Tower.

Merrilee McCann is in charge of the Saturday evening affair. Akthy Clark is handling the preparations for the pre-party will be held at the home of Sue Hornish.

Bill Albers' orchestra will play for the dance.

Sponsors attending the fete will be Dr. and Mrs. Herbert Jones and Dr. and Mrs. Raymond Smith.

Committee members are Sue Collins, Sandi Croft, Marilyn Dodrill, Marie Englehart, and Marlene Hall. Others are Karen Jensen, Jan Morevec, Beth Nelson, and Maggi Willey.

The Alpha Xi's recently pledged Carol Peterson.

KDPi Elects New Officers for Year

New officers have been elected for Kappa Delta Pi, the education honorary.

President is Karen Stacke; vice president, Lola Roberts; secretary, Jo Linda Felton; treasurer, Dr. Hebert Jones, assistant professor in the College of Teacher Education. Linda Peterson is the historian.

Kappa Delta Pi will hold a regional conference on the Wesleyan University campus in Lincoln, April 20. Eight local members are planning to attend.

Jo Poulsom was initiated into the honorary at the last meeting.

Bowling Tournament Is Planned by WRA

A mixed doubles bowling tournament, sponsored by WRA, will be held April 15 at the 40 Bowl. It is to begin at 9:30 p.m.

A three dollar fee will be charged for the event which is open to all university students. Trophies will be awarded to the winners.

Midge Butters and Sherrie Ulfers are in charge of the arrangements. Reservations must be made with them or in the Womens P.E. Hut by April 7.

Military Ball Will Be April 5 at Peony Park

Left to right, Eddie Powers, Dave Parke, Fred Abbott, Clem Steyer, and Richard Parrish are at the Military Ball ticket counter waiting for the crowd.

A "Showboat" twist will be given to the Twelfth Annual Military Ball on April 5.

The Ball, sponsored by the AFROTC department, will be held at Peony Park from 8:30-1 p.m. Tickets are now on sale.

The AFROTC Band will hold a pre-concert at 8:30. They will be followed by the Eddy Haddad Dance Band.

During intermission the Angels will sing three selections from the Broadway hit "Showboat." Angel Sandy Staub will direct the group.

Marching Angels will perform under the direction of Cadet Major Dean Burke. Cadet 1st Lt. Art Simon will command the Sabers Drill Team.

A member of Angels Flight will present the Outstanding Junior Cadet of the year to one of the junior members of Arnold Air Society.

Arnold Air Society Cadet Colonel Clem Styer will announce the new members of Arnold Air Society and the newly selected members of Angels Flight. The new AAS Commander will also be announced at this time.

Last on the intermission agenda is the Grand March. Members of Arnold Air and Angels

Flight will participate. Angel Flight honorary Colonel, Lt. Colonels, and Majors will be named at this time.

Candidates for honorary Colonel and Lt. Colonel are Sharon Johnson, Marie Karpisek, Carolyn Karre, Joanne Volenec, and Midge Butters.

Dott Mott, Earlene Timm, Sue Weidehamer, Linda Peterson, and Jo Ann Vander Stoep are candidates for honorary Major.

Committee chairmen for the affair are: Eddie Powers, decorations; Ed Pechar, Publicity; Art Simon, Intermission; Stan

Winslow, Invitations and Reservations; and Dave Schuur, Tickets.

Cheerleading Tryouts Are Slated for April

Cheerleading tryouts have been scheduled for April 30. Two practice sessions have been set for April 26 and 29 when the present cheer-leaders will be present to help with cheering techniques.

Anyone desiring further information should contact Mr. Jack Malik or Gail Browning.

Honors Awarded At Greeks' Dinner

Scholarship and athletic awards were presented at the twelfth annual Greek Week Banquet Friday night in the Student Center. Chi Omega and Pi Kappa Alpha walked away with the majority of the awards.

Chi Omega Took scholarship honors for the highest sorority average of 3.01. They received a silver tray award from the City Panhellenic Council. Pi Kappa Alpha had the highest average of the fraternities with a 2.45. This is the highest fraternity average since 1951.

High individual average honors went to Judy Eichorn of Chi Omega and Judy Rinschen of Sigma Kappa. Both girls had a perfect 4.0 average for the past two semesters. Dud Kersey of Pi Kappa Alpha had the highest grades of the men with a 3.8.

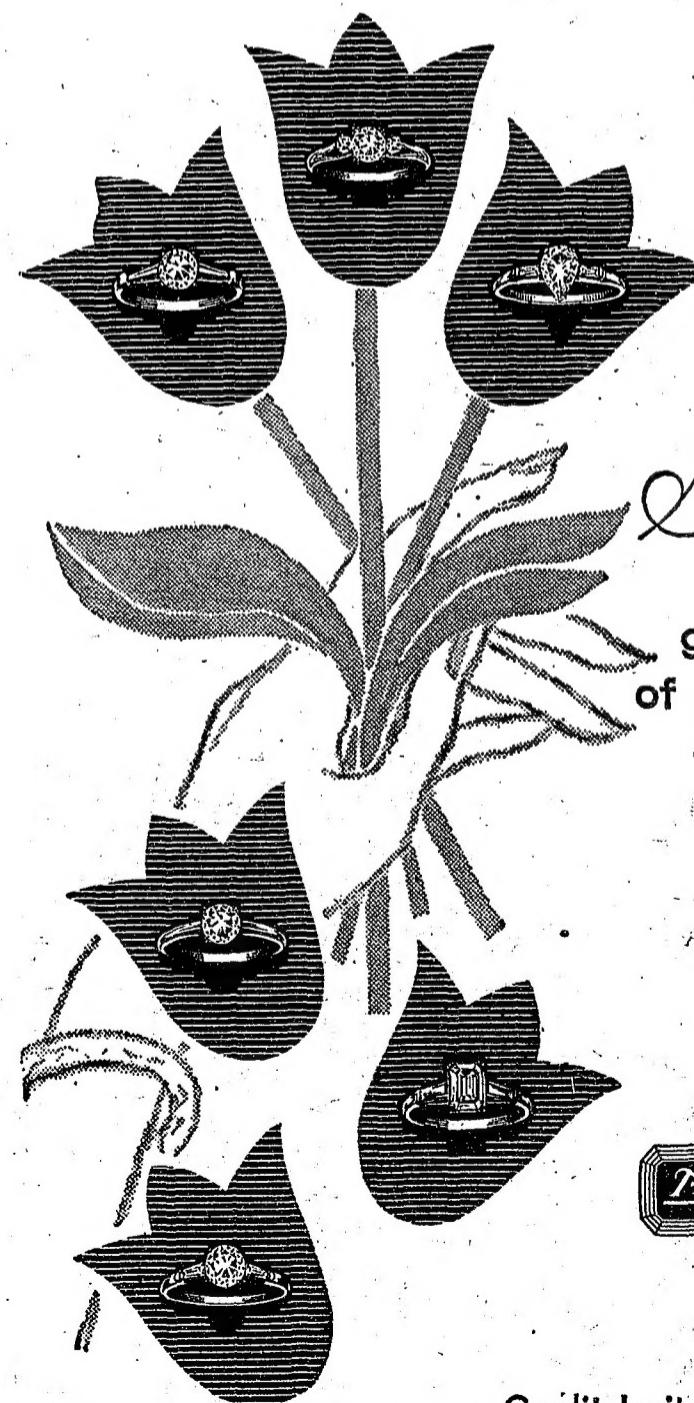

Individual scholarship awards were also presented to the pledges. Diane Mahoney, Alpha Xi Delta, had a 3.94; Jim Grasso, Pi Kappa Alpha, had a 3.78 average.

Judy Jensen of Alpha Xi Delta and Dick Tompsett of Pi Kappa Alpha received the outstanding pledge awards. They received these honors for both scholastic excellence and their contributions to campus activities.

The Intermural athletic sweepstakes trophy was earned by Pi Kappa Alpha. They also won the swimming, volleyball, basketball, and indoor and outdoor track awards.

The football, softball and archery trophies were won by Lambda Chi Alpha. Sigma Phi Epsilon took honors for the golf, wrestling and four mile relay events. Tau Kappa Epsilon won the bowling trophy.

Credit Invited—Time Arranged

College of Saint Mary Offer Party Invitation

The sophomore class of the College of Saint Mary will present a "Kool Kasual" party in the Marian hall student center at 72nd and Center streets. The event is scheduled for 8 p.m. tonight.

Activities will include card playing and dancing. Refreshments will be served.

College-age young men are invited to attend. Casual dress and informality are stressed.

Army's Col. Tredwell Now Holds Navy Admiral's Rank

Lt. Col. Jack Treadwell, an OU student via the bootstrap program, is made an admiral in the Nebraska Navy by President Milo Bail. Dr. Bail presented the certificate on behalf of Nebraska Governor Frank Morrison.

Omaha University and the State of Nebraska paid tribute to a Congressional Medal of Honor winner Tuesday. President Bail presented a certificate on behalf of the governor making Lt. Col. Jack L. Treadwell an Admiral in the Nebraska Navy.

The bootstrapper came to OU in September and will graduate with a degree in education in June.

He is one of America's most decorated soldiers. In his 22

years of active service in the Army he has seen duty in Europe and Africa and has received numerous medals. Some of the more outstanding are the French Croix-de-Guerre with Gold Star, the Distinguished Service Cross, the Silver Star, the Bronze Star, and Purple Heart with three oak leaf clusters.

When he graduates in June he will leave for a three year tour with U.S. Army Europe Headquarters in Heidelberg, Germany.

Class Has 206 Giving Parties

Picture at left,

Have you ever heard of a class that had to give a party as part of a class assignment? Well Ernie Gorr's Recreational Leadership class did just that last Wednesday night.

Mr. Gorr put it this way: The class is divided into four groups, each group has to plan, organize and conduct a party or a social function for the other members of the class.

"This gives the class members an opportunity to put into practical application what is being taught in class." He emphasized that the quality of leadership development is stressed.

The party was held at the North Omaha Naval Air Station and was given for the officers as well as the other class members.

Everyone present received an invitation and the theme was "Greetings from Uncle Sam."

Party games and singing were the entertainment. Refreshments were also served.

Joe Neuberger was in charge of publicity; Ilah Wardrobe, invitations; Jo Ann Oberraitner and Patty Goldsberry, refreshments, and Phil Kalisch and Jim Rodgers, singing.

Mr. Gorr said that four more such activities are currently being planned before the end of the semester.

"Believe it or not—this is our homework!"

Sharpe Warns File for Degree 'By April 5th'

Registrar Virgil Sharpe this week warned seniors planning to graduate in June they must file an application for a degree no later than April 5.

"Every year we have some disappointed students who miss the deadline," he said, "and we have to say, 'sorry, you have to wait until August 31 before getting your degree.'

More than 440 students had filed degree applications Wednesday, he said, "and we expect more than 600."

The size of the June 3 commencement "may be a record," he said, "if it goes much over 600."

Applications for degrees are to be filed in Administration 220.

Fees of \$10 for bachelor's degrees and \$15 for master's degrees are to be paid in the Cashier's office.

The fee covers the cost of the degree and caps and gowns which are being fitted in the University Bookstore.

In Intramurals . . .

Pi Kaps Lead in Volleyball; Spring Sports Are Scheduled

By Arlo Grafton

The Pi Kaps hold a slim lead in the men's intramural volleyball league.

The Pikes are undefeated with an 8-0 record.

Two teams, TKE and P.E. Majors are in a close second position, with 7-1 records.

The Hunters are in the fourth position with six wins and two losses.

There are 12 teams in the league and they play all games in the women's P.E. hut.

Weak Pitching Staff May Hurt Baseballers

Vets Backes and Yelkin discuss horsehide troubles.

By MIKE MORAN

Accustomed to fine teams and conference championships and all, OU baseball fans are in for a long year . . . as far as Coach Virgil Yelkin, perennial pessimist is concerned.

However, fans who take the veteran OU diamond master seriously should look up Yelkin's sparkling record to be swiftly consoled. The 16-year Yelkin log reads 170 wins against a mere 59 losses.

Included in this fabulous career are four CIC championships in the four years OU has been a member; four K-M-N league titles in four years; four NAIA District titles and three trips to the national tourney.

The Indians record in NAIA play is phenomenal, one runner-up trophy and a fourth and third place to match. The 1959 Indians went all the way through the season undefeated only to lose the title in the NAIA tourney to Georgia Southern in the final game.

Yelkin has a reputation for turning out good teams from inferior material but this year's crop is not considered inferior by any ways or standards.

Pitching Work

The pitching corps is perhaps the darkest spot of all. Gone are NAIA All-American Barry Miller to the Baltimore Orioles. Steve Lipman, with a 6-3 record and an ERA of less than 2.0 left OU to enroll at Maryland University.

The Indians will also miss mound aces Mike Coughlin and speedballer Mike Szemplenski, another Indian turned pro.

for the Douglas County Gazette and uses his speed to keep the county weekly on top in Eastern Nebraska.

On the brighter side of the picture, the returning vets include two-year lettermen in Wayne Backes (.339), Bill Wachler (.301) and first sacker Ken Allen (.203) in 1962.

The infield is solid with Wachler at second base, three-year vet Joe Neuberger (.264) at shortstop, Eddie Bryant (.500) at third base and the hefty hitting Allen at first.

The key to improving last year's 18-6 record lies with the arms of Yelkin's young pitchers: Frank Pecha, Bill Drefs and Dennis Jackson.

Backes, Ken Smith, Gary Gilmore and pitching hopefuls Ken McEwen and Bob Siebler must come through if things are to jell.

Smith is a four year regular who batted .358 in 1962. Backes is OU's only three sport letterman and the New Jersey native batted a strong .339 last year as regular rightfielder.

Gilmore is a sophomore with good power who came on to play good ball for the Indians toward the end of the 1962 season. McEwen is making the switch from the outfield. Ken was the 1961 American Legion National batting champ and led the Omaha Storz team to a third place national finish at Hastings.

Siebler is a former letterman who is returning to the squad after a year's absence. He was 1-0 in 1961.

Letters earned. *Did not play last season.
zReserve letter.

THE 1963 BASEBALL SCHEDULE

April 6 (Saturday)—Simpson College of Omaha (2 seven-inning games).
April 10 (Wednesday)—Peru State Teachers College of Omaha (2 seven-inning games).
April 11 (Thursday)—Northwest Missouri State of Omaha (2 seven-inning games).
April 16 (Tuesday)—Omaha of Morrisdale College in Sioux City (2 seven-inning games).
April 20 (Saturday)—Omaha of Drake University in Des Moines (1 nine-inning game).
April 22 (Monday)—Omaha of Creighton University (1 nine-inning game).
April 24 (Wednesday)—Omaha at Rockhurst College in Kansas City (1 nine-inning game).
April 26 (Friday)—Omaha at Rockhurst College in Kansas City (1 nine-inning game).
April 27 (Saturday)—Omaha at Rockhurst College in Kansas City (1 nine-inning game).
April 30 (Tuesday)—Omaha at Washburn University in Topeka (2 seven-inning games).
May 4 (Saturday)—Pittsburg State College in Omaha (2 seven-inning games).
May 7 (Tuesday)—Omaha at Emporia State in Emporia (2 seven-inning games).
May 10 (Friday)—Omaha at South Dakota State in Brookings (1 nine-inning game).
May 11 (Saturday)—Omaha at South Dakota State in Brookings (1 nine-inning game).
May 14 (Tuesday)—St. Benedict's College in Omaha (2 seven-inning games).
May 17 (Friday)—Creighton University of Omaha (1 nine-inning game).
May 21 (Tuesday)—Omaha at Nebraska Wesleyan University in Lincoln (1 nine-inning game).

Gone from the hitting side of the ledger are leading hitter Ray Fehrman (.439) from third base; 1961 NAIA batting champion, Jack Vaccaro and his pal in the OU outfield, Stan Macaitas, now coaching baseball at Creighton Prep.

Ritner Missed

Speedy John Ritner will be sorely missed. The little redhead had a hole in his bat most of the season last year but once he did get on base was another Ty Cobb. Ritner has turned writer

Track Marks Fall; Sayers Is Leader

By Tom Wolff

Rocket Roger Sayers and Terry Williams led the list of record breaking and record tying performances turned in during the just completed indoor track season.

Sayers broke the 75 yard dash mark of :07.5, that he himself held, when he ran a :07.4 at last week's Kansas State Relays. Roger's other record smashing performances came in the 60 yard dash and the 300 yard dash. Sayers tied his :06.1 clocking in the 60 on several occasions and also tied his own 300 mark of 30.4, which is the third fastest time ever recorded in the world.

Williams tied Sayers' records in both the 60 and 75 yard dashes. Terry's :06.1 and :07.4 in these two respective events were only overshadowed by his record shattering clocking of 50.5 in the 440. This record was accomplished during the CIC Track Championships, and it established a new CIC record, breaking Sayers' old one of 50.9.

One of the most impressive records put on the book was by the mile relay team of Lloyd Cardwell, Jr., Melvin Wade, Williams, and Sayers of 3:21.4. This time eclipsed the old record set by Cardwell, Loren Drum, Alan Roberts, and Sayers of 3:28.1, by nearly 7 seconds.

Other records were set by sophomore Ray Hultman and Seniors Jack Krogh, Bruce Hunter and Gerald Richardson.

Hultman set records in the 600 and 880 with clockings of 1:16.2 in the 600 and 2:00.8 in the 880. The 2:00.8 in the half mile broke the record set by Dennis Dunning in 1961 of 2:01.4.

Krogh's record came in the shot put where he broke a six-year-old record set by Frank Ruvolo in 1957. Krogh's throw of 45-7/8 broke the old record of 44-8/4.

Hunter's record of 23-3 in the broad jump was 3 1/4 inches better than the record set by James Foster last year.

Gerry Richardson's jump of 12-6 broke the three-year-old mark of 12-0 set by Dave Garrett in 1959.

Coach Cardwell is looking for a bigger onslaught on the record book in the upcoming outdoor season.

Sports Fete Set For April 18th

Omaha University's annual All-Sports Banquet will be held on April 18th in the Student Center at OU.

Athletes in all sports will be honored for participation in intercollegiate athletics by letters and certificates.

This year's banquet marks the second of its kind for the University's athletes. Previously individual sports held individual dinners and award ceremonies.

Again as last year, awards will be given to outstanding players in each sports as well as the Alumni Athlete of the Year Award and the Buck Club Award given to a deserving senior.

Roger Sayers and Stan Macaitas were recipients of the awards given by the organizations last year at the first banquet.

Wife, Family, Studying Keeps Indian Flyhawk Smith Active

Family man Ken Smith . . . doubles as OU slugger.

By Ken McEwen

To have a wife and family, and to be a full time student and then hit .358 is quite an accomplishment.

That's what Ken Smith did last year for Omaha University's baseball team. And those who know him expect him to do equally as well on the diamond again this year.

Ken, a P.E. major with a 2.2 accumulative average, looks at this year's team with great optimism. He emphasized that the team would have "a real good chance" at repeating as CIC champs. Since Ken has been at OU, the teams that he has played on have won three CIC conference championships and have been to two NAIA tournaments.

Three letters for his three years of effort at the sport have made Kenny and Joe Neuberger this year's co-captains.

Ken bats and throws left on the diamond as well as in the other sports that he enjoys. He says that he shoots somewhere in the eighties at his golf game but refused to disclose his bowling average.

He reaped glory at Tech High School also where he was All-City in the outfield. He was a halfback in his football days at Tech.

Ken and his wife Emily chase their two little cherubs Debbie, 1, and Karen 3, at their home at 3523 Franklin. Ken's only comment about them was that he kinda hated to see Spring come so quick because his kids get up that much earlier, and that he is usually elected to dress them.

With a twenty-second birthday coming up in May. He still has a year left of student teaching before he will graduate next June.

OU Engineering Department Can Boast of Real Jet Airplane Engine; Now All It Needs Is the Rest of the Plane

Associate Professor of Engineering, James H. Brown, explains just how the engineering department's gas-powered turbine works. The turbine was donated to the university by Northern Natural Gas Company.

By Tom Ash

The University engineering department boasts it has one piece of laboratory equipment that not many schools have, a real live jet airplane engine.

That's right, no airplane, just the engine.

James H. Brown, associate professor of engineering, said the department has a gas turbine normally used as one of four engines in a prop jet aircraft.

He said there have been some modifications made in the gear reduction system and in the combustion chamber to make it suitable for connection to an electric generator, but otherwise it is the same engine that powers the plane.

Could Be Fired

The machine is a cut-away version now for demonstration purposes in a thermo-dynamics class, but it could be fired up if the housing were replaced.

Brown noted, though, "we couldn't do it in the lab, because we don't have a generator, and the tremendous heat that would be produced would just go into the room."

He also said the turbine, which weighs less than 300 pounds, is capable of turning out 460 horsepower.

It was presented to the University through the courtesy of the Northern Natural Gas Company.

IBM Cards to Be Used at Mid-Term

A new venture in compiling mid-semester scholastic reports at OU was launched this week.

Instructors were marking IBM data processing cards with students' grades, absences and reason for absences.

The cards are due in the academic deans' offices no later than next Tuesday.

"Grades can't be processed until they're all in," Dean Donald Pflasterer said, "so we can't tolerate any professors who are delinquent in turning in the cards."

"It used to take weeks to compile mid-term scholastic reports," he said, "but with automation now it's a matter of hours."

The cards are "just as accurate as the person who marks them," he said.

Pflasterer said that the mid-term reports will not be mailed to students.

After processing, the reports will be sent to student counselors.

Construction Forces 10 Parking Transfers

Approximately 10 reserved parking spaces have transferred from the Library parking lots to the lot south of the AA Building.

The transfer was necessary because of the construction of the new wings on the library.

The reserved stalls are used for faculty parking.

Brown continued that, "through the use of the turbine we can show the students just what a turbine is and how it operates, something that can't be done with books."

Versatile Little Jewel

Professor Brown praised this particular type of turbine for its great versatility.

He said, with a few modifications, one turbine or several connected together can serve as the single source of power for one building or a complex of buildings such as a motel.

He pointed out that this power source could provide all the heating, lighting, cooling, and

domestic hot water for several buildings in a small area.

Brown concluded that this is "an attempt to get the students intimately acquainted with certain types of engineering equipment we certainly couldn't afford to buy."

The engineering department has enormous potential through the acquisition of the jet engine.

Just think, tomorrow they might get the rest of the plane, next week, two, and if Northern Natural Gas starts making any money, they might build a whole air force.

Today the engineering lab, tomorrow the world.

Ground Breaking Ceremony Mon.

Ground breaking ceremonies for the \$462-thousand wings of the Eugene Eppley Library are slated for 11 a.m. Monday on the east side of the library.

Taking part will be President Milo Bail, University architect John Latenser and contractors for the new wings, Foster-Smetana Co., Wallin Electric, and J. J. Hanighen Plumbing.

Others involved will be Don Maseman, representing the alumni, Jim Leslie, president of the Student Council and Wilfred Payne will represent the faculty. A representative from the Eppley Foundation, which awarded OU a grant to cover part of the construction cost, has been invited.

A luncheon ceremony is scheduled in the SC.

While the wings are being built students will not be permitted to park in the two parking lots on the west side of the library. Only the northwest lot will be lost permanently. The east and west entrances to the library will also be closed to student traffic.

Reception Scheduled For CAE March 31

A reception for students enrolled in the College of Adult Education will be held Sunday, March 31 from 3 to 5 p.m. in the Student Center Ballroom.

President Milo Bail will speak to the students and faculty of the CAE on the proposed mill levy election.

Widen Halls or Use More Soap

By Alan Johnson

With the advent of the 24 hour deodorant pad, it seems, came the crowded conditions in the hall outside of room 101 in the Applied Arts building. From 20 past the hour until 30 past, the situation is sometimes funny, sometimes maddening—but always time consuming.

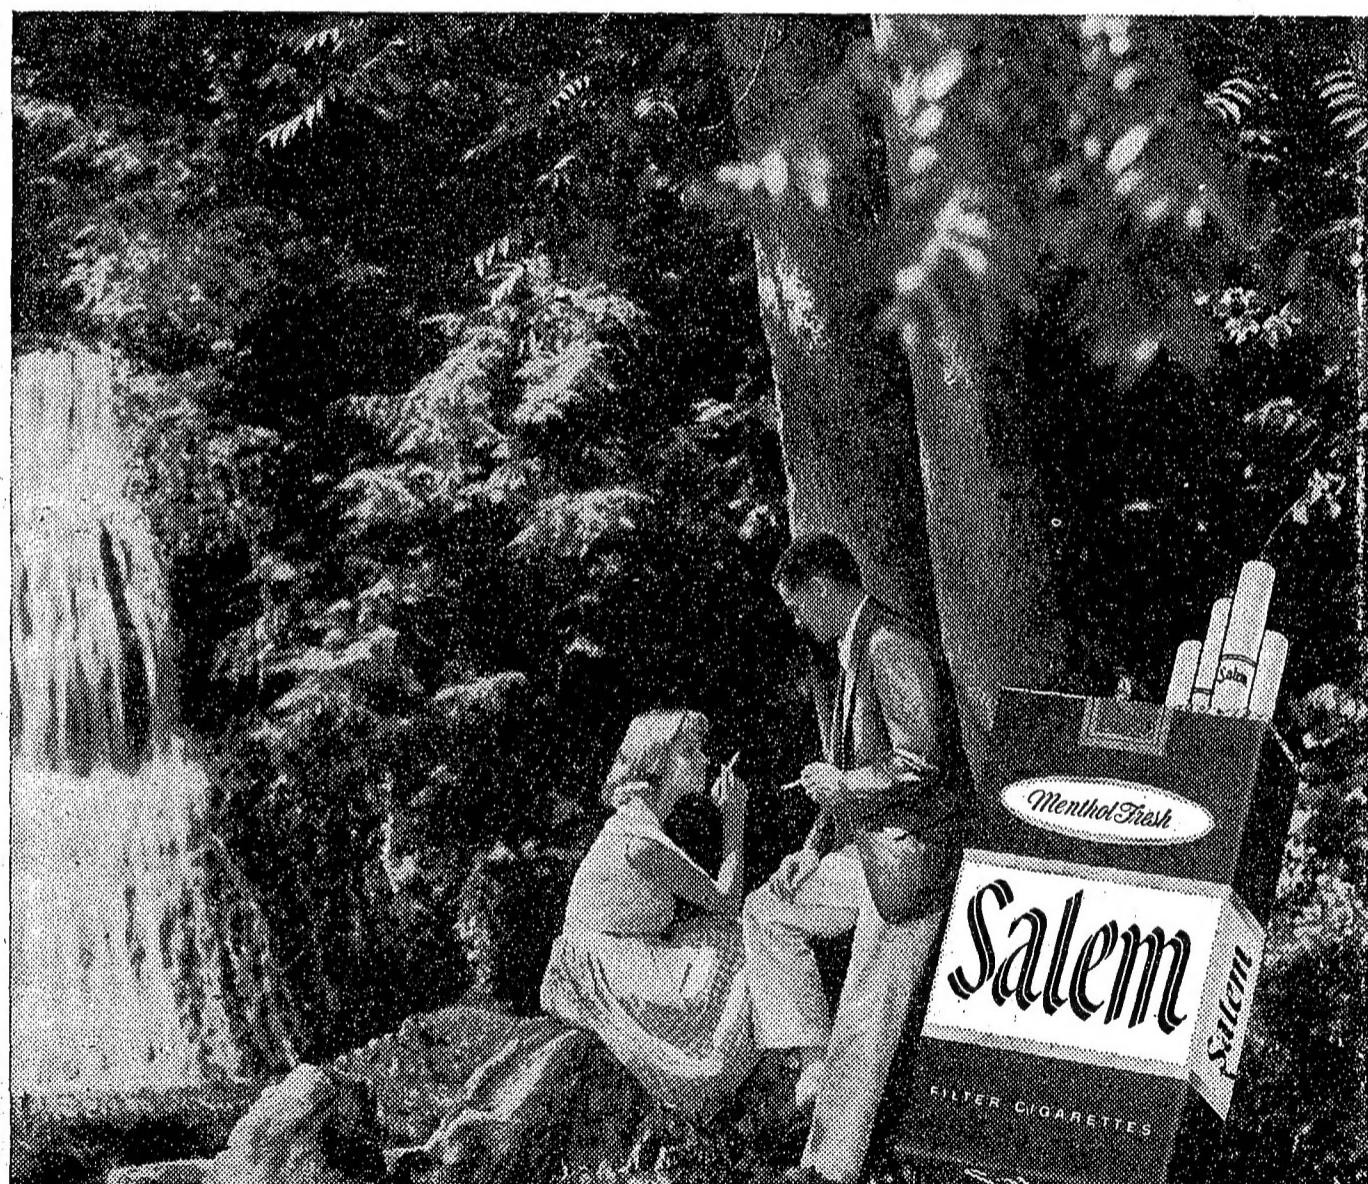

If one begins at the west end of the building at 20 past the hour and expects to reach the Administration building by half past the hour for a class, one might just as well try to get to Council Bluffs in the allotted time.

The congestion prior to and following classes in 101 is unnecessary. There's no sense to be crushed together so as to be stabbed in the back by books, have brief cases shoved twixt one's legs, have cigarettes put out on one's coat and wishing everyone used Dial soap.

There is more confusion in that particular hall than anywhere else on campus. The OUampi room with the usual 15 people-per-table is no match for the "closeness" of these hallowed halls in the AA building.

A suggestion?

Why not begin and dismiss classes in 101 four or five minutes ahead of the other classes. It doesn't really take 10 minutes to go from the Administration building to Applied Arts. With the mass of humanity jamming the front of the building, passage would be greatly expedited.

Salem refreshes your taste —“air-softens” every puff

Take a puff...it's Springtime! A Salem cigarette brings you the taste of Springtime...so soft and refreshing. Puff after puff...pack after pack...Salem smokes fresh and flavorful every time. Smoke refreshed...smoke Salem!
